

MERILYN MASTRANGELO

Front End Web Developer

Statement

Since I've started building simple landing pages to web applications I've discovered the development world never been "just a job" or "just a project" but the way I continually learn and improve my skills creating a functional and high-quality user experience. I strive to create software to provide intuitive and pixel perfect interfaces that people can enjoy on all medium devices.

Currently I am learning React. I am looking for a position where I can progress and grow as developer.

Projects

StayHealthy

- Responsive and single page restaurant website.
- Created from scratch without any theme.
- HTML, CSS, SASS and JavaScript was used in development process.
